

General Instructions

Summer Vacations are synonymous with fun and frolic, going for picnics, playing for long hours, exploring new places, and much more. But, dear children, there is a lot more you can do to make this break more interesting and meaningful. So here is an "ACTIVITY BOOK" for you. When the school reopens bring back your TREASURE, to go through it will be our PLEASURE!

- These activities are provided as guidelines by our teachers to involve the child and utilize his / her energy constructively.
- Please bring these assignments to school on the first working day after Vacations.
- Parents are requested to only guide the child with these assignments, it is essential to let the child learn by performing the tasks himself / herself wherever possible. Controlled / Limited guidance will help the child a long way.
- The aim of these tasks is to induce learning, you are requested not to put / take any undue pressure by trying to achieve "perfection" or trying to "finish off" the assignments. Use the "One Step at a time" approach and attempt the tasks "one by one"
- DO NOT put pressure on the child to finish these assignments. Let the child do these assignments gradually, at a reasonable pace.
- Encourage your child to do the activities himself / herself and appoint a specific time to do a part of the homework every day.
- Originality of ideas and work will be appreciated.
- Creativity of the child knows no boundaries; please feel free to experiment with new ideas / ways of doing things.
- Label all your work before submitting it to your Class Teacher.

Important Note for Craft Activities :

- Craft activities involve cutting and pasting work. Cutting paper and other material cannot be done without the use of a knife / cutter / scissors. It is therefore advisable that children should undertake all craft activities under the guidance of elders.
- Pasting of paper or other material while doing craft activities involves the use of adhesive / glue. Care should be taken to ensure that children do not rub their fingers in / on their eyes or mouth while using adhesive / gum as it may lead to irritation or burning.

Lots of play, lots of fun

Fun-filled activities, under the sun

Have some lemonade and keep cool

It is holiday time, let us splash in the pool.

**Happy
Holidays!**

Few guidelines for our parents to make our child's Summer Break fruitful :

- "A healthy mind lives in a healthy body". Encourage your child to go out and play because it will instill discipline, generate sporting spirits, and channelize his / her energy constructively.
- Communication skills play a pivotal role in grooming the overall personality of our children. Converse with your child preferably in English to help him / her get comfortable with the language. Do not discourage the use of your mother tongue.
- Spend quality time with your child by engaging him / her in activities based on enhancing his / her powers of observation and imagination.
- Encourage your child to play board games. E.g.: Chess, Ludo, Carrom, etc.
- Sensitize your child about the diversity of our world by watching different informative channels like "National Geographic", "Animal Planet", "Epic", "Discovery", etc.
- "Knowledge is Power". Therefore encourage your child to cultivate reading habits because it not only enhances the knowledge but also develops vocabulary, language skills, and improves spellings.
- Read to your child because it builds listening skills and increases his/her attention span.
